The Bores Brief

Only have minutes to spare? Here's what you need to know:

- **I want to extend my congratulations and support to Assemblymember-Elect Vanessa Aronson.** She will be succeeding me in this office in January and be your next Assemblymember. I am confident in her dedication, passion, and ability to improve the quality of life for Assembly District 73. I am making sure we have a seamless transition so you can continue to count on the results you deserve from this office.

- **Until then, please continue** to contact and visit our office for any assistance and information. Our district team is committed to giving you all the help, resources, and guidance you need as we begin the transition to the winter months.

- **Last month, I joined Stacey Abrams and Kevin Frazier** on the Scaling Laws podcast to share a conversation about the impact of AI on a national level, and how our laws in New York are helping set national standards. We discussed the creators and decisionmakers behind AI features, why AI regulation can't be left to tech companies alone, and what states can do to put people back in control of the issue. You can listen to this discussion here: https://bit.ly/4BJQN4P

Sincerely,

Alex Bores
Your Assemblymember

LEGISLATIVE UPDATES

Chatbot Safety Bill Signed (A10379): Governor Hochul signed Assemblymember Bores' bill on AI chatbot safety into law, A10379, alongside Attorney General James and State Senator Gonzalez. The bill protects minors from unsafe chatbot features. These prohibited features include the implication that AI is a human or has human emotions and the suggestion of a relationship with the child. Any endorsement or facilitation of suicide, self-harm, and substance abuse is also made illegal. New York has now passed the strongest law in the country protecting children from chatbots, setting another new standard for nationwide common sense AI regulation.

DISABILITY PRIDE PARADE

Alex marched with community activists and leaders in the annual Disability Pride Parade and Festival. The parade has marched for nearly 50 years, following the 1977 Section 504 sit-ins. The sit-ins protested discrimination against people with disabilities in receiving federal funding programs. The disability community marches together to ensure people living with disabilities have the opportunity to lead and preserve the rights they're entitled to.

IN THE COMMUNITY

Alex joined the Knickerbocker Greys for their open house and grand return to the Park Avenue Armory! It was their first time back in their historic home since COVID, enabled by Alex's bill in 2024 with Senator Krueger. Cadets had the opportunity to meet returning alumni and listen to their experiences as they prepared to start the new season. The Knickerbocker Greys are the oldest afterschool program in America and instill mentorship, teamwork, and responsibility in children ages 7 to 16.

Assemblymember Bores spoke at the Murray Hill Neighborhood Association's annual 2026 meeting to acknowledge and thank the Murray Hill community for their hard work and commitment to bettering the area. The association works year-round to preserve the neighborhood's architecural character and residential beauty, providing a strong and welcoming environment for the Murray Hill neighborhood.

Alex celebrated the Sutton Area Community's 50th Anniversary in honor of the neighborhood work and service they provide to Sutton Place. Sutton Area Community collaborates to bring neighbors, vendors, and elected representatives together to improve Sutton Place residents' quality of life, keeping the community vibrant and informed.

The Assemblymember's office hosted a free shred truck event in partnership with the NYC Department of Sanitation to help neighbors dispose of unwanted paper and documents. The community showed up with filled folders, garbage bags, and even car trunks to preserve their privacy and safety!
