Hazard Mitigation Grant Program

State Emergency Management Office

The State Emergency Management Office (SEMO) is requesting Letters of Intent (LOI) from eligible applicants for the development of mitigation plans. Funding will be available under the Hazard Mitigation Grant Program (HMGP) from three major disaster declarations—FEMA-1665, FEMA-1670 and FEMA 1692-DR-NY. These declarations were made subsequent to the October 2006 snowstorm that impacted Erie and several other western New York counties, the November 2006 flooding that impacted several counties in the Southern Tier-east and central parts of the State and

the “Nor’easter” that affected the New York Metropolitan region of the state. Via the regulations governing the use of HMGP funds, planning grant funds will be used to support the development of multi-hazard

single or multi-jurisdiction hazard mitigation plans. It may also be used to support the required update needed to maintain currency. FEMA-approved mitigation plans are required to be in place before eligible applicants can apply for project funding. Only those counties and other local governments that do not currently have FEMA-approved hazard mitigation plans or are currently engaged in such planning can apply for these funds. It is imperative that LOIs be submitted as soon as possible because FEMA requires the funds be committed within one year of the disaster declaration. The first anniversary of 1665 is 10/24/06; 1670 is 12/12/06 and 1692 is 4/24/07.

ELIGIBILITY: State and local governments, private non-profit organizations or institutions that own or operate private non-profit facility, or Indian tribes.

FUNDING: Will depend on disaster area.

DEADLINE: LOI due by January 2, 2008.
