

**Government money  
doesn't grow  
on trees.**

**It comes  
from middle-class  
families.**

*A special report from*

**ED RA**

NEW YORK STATE ASSEMBLY

# Government has a spending problem and we all know it.

## *No more budget gimmicks and accounting tricks.*

- \$ Tighten the belt:** Ra supported a responsible budget that fought to return government to its proper, limited size.
- \$ Let us decide:** Allow free enterprise and individual responsibility to thrive and drive our economy.
- \$ Empower job creators and local governments:** Restore personal freedom and allow decisions to be made by job creators and officials closest and most accountable to taxpayers.
- \$ Enact a spending cap:** I have sponsored Assembly bill 5370, which would enact a spending cap and impose greater fiscal discipline on state government.
