Kevin went to Albany to protect *your* interests.

REFORM IN ACTION

A TAX CAP

Kevin passed a 2% property tax cap so families, farms, and small businesses can thrive in Western NY.

REDUCED ALBANY SPENDING

Kevin passed an on-time budget that closed a \$10 billion deficit through 10% state agency cuts and government consolidation.

INVESTING IN THE ECONOMY

Kevin helped champion SUNY 2020 to bring investments in economic expansion and job creation to the University at Buffalo.

ENDING POLITICAL CORRUPTION

Kevin sponsored and passed a landmark ethics law that helps keep Albany politicians and lobbyist business dealings open and transparent.

FUTURE GOALS

JOBS

Kevin will continue to work to remove government barriers that get in the way of job creators.

TAX RELIEF

Albany passed a tax cap, but Kevin knows that's not enough, which is why he's sponsoring an aggressive unfunded mandate relief bill. True and effective mandate relief for schools and local governments means tax savings for homeowners and small businesses.
