## A Message from Jo Anne...

The President and Congressional leaders recently pushed their ‘tax reform’ bill one step closer to law. I am extremely concerned about the impacts of this bill on New York State families and the state budget. Instead of helping hardworking people, the plan [will grow the deficit](#) by \$1.44 trillion and benefit the ultra-rich and giant corporations at the expense of everyone else.

Here in New York, decreasing or eliminating state, local and property tax deductions will hit middle-class families especially hard. The resulting deficit would also have [damaging implications](#) for our seniors through Medicare cuts, increase health insurance premiums, and increase the number of uninsured individuals.

A close look at the details of this plan show just how much the wealthy benefit while the majority of families and small businesses in my district—and across the country—don’t. It’s not only heartless but also bad policy to tell a teacher they can no longer get a tax deduction for buying extra school supplies, or to tell a new homeowner they can no longer deduct the interest they pay on their mortgage, or even the recent college grad drowning in student loan debt that they can’t deduct the interest they pay. The deductions that regular people routinely use will be eliminated in order to help pay for a huge corporate tax cut.

The state legislature returns to Albany in January to work on the state budget and we will face some very difficult choices if this bill becomes law. I will keep you updated as the Governor presents his budget proposal.

## **Time to Enroll in Health Care for 2018**

New York’s Healthcare Marketplace, NY State of Health, is a way for individuals, families, and small businesses to find quality health insurance (the Marketplace isn’t for people who have Medicare). The 2018 enrollment period is open.

**Need Financial Help?** Financial aid to buy insurance is available for most consumers. You may qualify for an even more affordable option through the state’s Essential Plan, which covers essential health benefits and includes a either a \$20 monthly premium or nothing, depending on income. You may also be eligible for Medicaid.

**How Do I Apply?** Apply online at [www.nystateofhealth.ny.gov](http://www.nystateofhealth.ny.gov), or call the Marketplace at 1-855-355-5777.

**Need Free Help Applying?** Trained navigators are available to walk you through the application process. To find a navigator near you and set up an in-person appointment, call the Marketplace or go to:

<https://info.nystateofhealth.ny.gov/ipanavigatorsitelocations>

**When Do I Apply?** Apply by **Dec. 15, 2017** for coverage effective Jan. 1, 2018. Open enrollment for 2018 ends **Jan. 31, 2018** (Note: the federal deadline is Dec. 15, 2017, but New York has extended its deadline for our Marketplace). After that time, you may only apply if you experience a qualifying event, such as loss of your current coverage, pregnancy, job loss, marriage or divorce, or other event. Note: You may apply for Medicaid or the Essential Plan at any time.

### **We Grow Community! District 15's Garden Train**

I was thrilled to attend the launch of the District 15 Garden Train, the School Gardens Consortium – the first of its kind in New York City. School gardens are fertile ground for learning from and learning to respect others. They encourage students to work together and with nature, building understanding, empathy, communication, and tolerance. Garden Train is doing great work to build and support gardening programs at every school and strengthen the community. The first project is creating a Tool Lending Depot which will store shared gardening equipment. To learn more and get involved, visit: <https://www.facebook.com/GardenTrainD15/>.

### **End the MTA Subway Signal Failure.**

In a time of unprecedented subway delays, it is critical that the MTA makes signal repairs a top priority. We now know that the leading causes of delays are signals that have not been updated since the 1930's. However, the MTA's subway rescue plan doesn't include any additional funding for signal modernization.

We must do the right thing and make signal repairs a top priority and ensure a fair and sustainable funding source for the MTA in the 2018 state budget. I am proud to join Council Member Brad Lander and my colleagues to launch [SignalFail.com](http://SignalFail.com) to urge transit riders to join the call fix the subway signals; document how signal failures impact your commute; and learn what we can do to modernize our signal system. Please join our efforts at [SignalFail.com](http://SignalFail.com)!
