(a) If a payment made pursuant to this section is not timely, 27 interest shall be payable in the same rate and manner as defined in 28 subdivision eight of section twenty-eight hundred seven-j of this arti-29 <u>cle.</u> 30 (b) The commissioner may waive a portion or all of either the interest 31 or penalties, or both, assessed under this section if the commissioner 32 determines, in their sole discretion, that the health plan has demonstrated that imposition of the full amount of the MCO provider tax 33 pursuant to the timelines applicable under the approval letter has a 34 high likelihood of creating an undue financial hardship for the health 35 36 plan or creates a significant financial difficulty in providing needed 37 services to Medicaid beneficiaries. In addition, the commissioner may 38 waive a portion or all of either the interest or penalties, or both, 39 assessed under this section if the commissioner determines, in their 40 sole discretion, that the health plan did not have the information 41 necessary from the department to pay the tax required in this section. 42 Waiver of some or all of the interest or penalties pursuant to this 43 subdivision shall be conditioned on the health plan's agreement to make 44 MCO provider tax payments on an alternative schedule developed by the 45 department that takes into account the financial situation of the health 46 plan and the potential impact on the delivery of services to Medicaid 47 beneficiaries. (c) Overpayment by or on behalf of a health plan of a payment shall be 48 applied to any other payment due from the health plan pursuant to this 49 50 section, or, if no payment is due, at the election of the health plan, 51 shall be applied to future payments or refunded to the health plan. 52 Interest shall be paid on overpayments from the date of overpayment to 53 the date of crediting or refunding at the rate determined in accordance 54 with this subdivision only if the overpayment was made at the direction 55 of the commissioner. he determines such general hospital is structured to provide specialized

1 ciently to permit it, subsequent medical care may be provided or 2 procured by the general hospital at a location other than the general 3 hospital if, in the opinion of the attending physician, it is in the best interest of the patient because the general hospital does not have 4 the proper equipment or personnel at hand to deal with the particular 5 medical emergency or because all appropriate beds are filled and none 6 7 are likely to become available within a reasonable time after the 8 patient has been stabilized. Whenever a previously stabilized emergency room patient is there-9 (C) after transferred for medical care to another location by means of 10 an 11 ambulance, the attending physician authorizing the transfer in the 12 general hospital from which the patient is transferred shall determine 13 that a receiving hospital is available and willing to receive such 14 patient and that an attending physician thereat is available and willing 15 to admit such patient. Just prior to the transfer, the emergency medical 16 technician or paramedic assigned to accompany the patient in the ambu-17 lance shall be provided with a completed form which shall include at least the following information and such additional information as the 18 19 commissioner may require: 20 (i) the patient's name; 21 (ii) the diagnosed condition of the patient; 22 (iii) any treatment administered to the patient; 23 (iv) any medication given to the patient; 24 (v) the name of the physician ordering the transfer; 25 (vi) the name of the hospital from which the patient is being trans-26 ferred; 27 (vii) the name of the physician or physicians who is or are willing 28 and authorized to receive the patient at the new location; 29 (viii) the name of the hospital or other facility that is to receive 30 the patient; 31 (ix) the date and time of transfer; and 32 (x) the signature of the physician ordering the transfer. 33 The form for this purpose shall be promulgated by the commissioner and distributed to all general hospitals in any such city. The completed 34 form shall be given to the receiving facility upon completion of the 35 36 ambulance trip for use by the receiving physician.] 37 3. (a) Medical screening required. Every general hospital must provide 38 appropriate medical screening examination within the capability of the 39 general hospital's emergency department, including ancillary services 40 routinely available to the emergency department when a request is made 41 by an individual or on the individual's behalf for examination or treat-42 ment for a medical condition to determine whether an emergency medical 43 condition exists. With respect to a pregnant person, such medical 44 screening examination must include a determination by a health care 45 practitioner licensed, certified, or authorized under title eight of the 46 education law, acting within their lawful scope of practice as to wheth-47 er the individual is in active labor. A general hospital may not delay provision of an appropriate medical screening examination or further 48 medical examination, and treatment required under paragraph (b) of this 49 50 subdivision in order to inquire about the individual's method of payment 51 or insurance status. 52 (b) Necessary stabilizing treatment for emergency medical conditions 53 and labor. If any individual comes to a general hospital and the general

- 54 hospital determines that the individual has an emergency medical condi-
- 55 tion, the general hospital must provide either:

1 (i) within the staff and facilities available at the general hospital, 2 for such further medical examination and such treatment as may be 3 required to stabilize the medical condition; or (ii) for transfer of the individual to another medical facility in 4 accordance with paragraph (e) of this subdivision. 5 6 (c) Obligation to provide treatment in accordance with applicable 7 standard of care. Admission of an individual experiencing an emergency 8 medical condition does not relieve a general hospital of the obligation 9 to provide treatment that is within the hospital's abilities and 10 consistent with the applicable standard of care. 11 (d) Refusal to consent to treatment. A general hospital is deemed to 12 meet the requirements of paragraph (b) of this subdivision with respect 13 to an individual if the general hospital offers the individual the 14 further medical examination and treatment described in such paragraph 15 and informs the individual, or a person legally authorized to make 16 health care decisions on behalf of the individual, of the risks and benefits to the individual of such examination and treatment, but the 17 individual, or a person legally authorized to make health care decisions 18 on behalf of the individual, refuses to consent to the examination and 19 20 treatment. The general hospital shall take all reasonable steps to 21 secure the individual's written informed consent, or that of an individ-22 ual legally authorized to make health care decisions on behalf of the 23 individual, to refuse such examination and treatment. 24 (e) Restricting transfers until individual stabilized. (i) If an indi-25 vidual at a general hospital has an emergency medical condition which 26 has not been stabilized, the general hospital may not transfer the indi-27 vidual unless: 28 (1) the individual, or a person legally authorized to make health care decisions on behalf of the individual, after being informed of the 29 general hospital's obligations under this section and of the risk of 30 31 transfer, in writing requests transfer to another medical facility; and (2) a health care practitioner licensed, certified, or authorized 32 33 under title eight of the education law, acting within their lawful scope 34 of practice has signed a certification that: 35 (A) based upon the information available at the time of transfer, the 36 medical benefits reasonably expected from the provision of appropriate 37 medical treatment at another medical facility outweigh the increased 38 risks to the individual; and (B) the transfer is an appropriate transfer to that facility; 39 40 (ii) A certification described in clauses one and two of subparagraph 41 (i) of this paragraph shall include a summary of the risks and benefits 42 upon which the certification is based. 43 (f) Acceptance of transfer. A general hospital shall not refuse to 44 accept an appropriate transfer of an individual who requires such 45 specialized capabilities or facilities if the general hospital has the 46 capacity to treat the individual. 47 (g) No delay in examination or treatment. A general hospital may not 48 delay provision of an appropriate medical screening examination required 49 under paragraph (a) of this subdivision or further medical examination 50 and treatment required under paragraph (b) of this subdivision in order 51 to inquire about the individual's method of payment or insurance status. 52 (h) Retaliation prohibited. A general hospital may not penalize, 53 retaliate, discriminate or otherwise take an adverse action against a 54 health care practitioner, because the practitioner refuses to authorize 55 the transfer of an individual with an emergency medical condition that has not been stabilized or because the practitioner provides treatment 56

38

1 necessary to stabilize a patient who is, in the practitioner's reason-2 able medical judgment, experiencing an emergency medical condition. A 3 general hospital may not penalize, retaliate, discriminate or otherwise 4 take an adverse action against any individual because the individual 5 reports a violation of a requirement of this subdivision.

6 <u>(i) Nothing herein shall be interpreted as requiring the provision of</u> 7 <u>care in violation of state or federal law.</u>

8 4. General hospitals shall adopt, implement, and periodically update
9 standard protocols for the management of emergency medical conditions,
10 including diagnosis, stabilization, treatment, or transfer to another
11 medical unit or facility.

12 <u>5.</u> A general hospital within a city with a population of one million 13 or more may request the emergency medical service of such city's health 14 and hospitals corporation or any person, firm, organization or corpo-15 ration providing ambulance service to divert ambulances to another 16 hospital only under the following circumstances:

17 A request for diversion of emergency patients with life threatening 18 conditions shall only be made by a hospital when acceptance of an addi-19 tional critical patient may endanger the life of that patient or the 20 life of another patient. A request for the diversion of other emergency 21 patients shall only be made when all appropriate beds are filled and 22 shall be withdrawn as soon as a bed is available. Notwithstanding the 23 foregoing, all requests for diversion must be renewed at the beginning 24 of each tour of duty as designated by the emergency medical service of 25 such city's health and hospitals corporation.

26 Diversion of patients with certain medical conditions which, in the 27 best interest of the patients, require their transport directly to 28 specialty referral centers shall be permitted following the designation 29 of such specialty referral centers. Diversion of patients with psychiat-30 ric conditions to comprehensive psychiatric emergency programs, as such term is defined in section 1.03 of the mental hygiene law, and subject 31 to the provisions of section 31.27 of such law, shall only be permitted 32 33 following the designation of the programs by the commissioners of health and mental health to receive such patients. 34

35 [4.] 6. Nothing in this section shall be construed to deny to [the 36 attending physician] a health care practitioner licensed, certified, or 37 authorized under title eight of the education law, acting within their 38 lawful scope of practice the right to evaluate the medical needs of 39 persons arriving at the hospital for emergency treatment and to delay or 40 deny medical treatment where, in the opinion of the [attending physi-41 cian] health care practitioner, no [actual medical] emergency medical 42 condition exists. [However, no person actually in need of emergency 43 treatment, as determined by the attending physician, shall be denied 44 such treatment by a general hospital in cities with a population of one 45 million or more for any reason whatsoever.]

46 [5.] 7. The staff of a general hospital shall: (a) inquire whether or 47 not the person admitted has served in the United States armed forces. Such information shall be listed on the admissions form; (b) notify any 48 49 admittee who is a veteran of the possible availability of services at a 50 hospital operated by the United States veterans health administration, 51 and, upon request by the admittee, such staff shall make arrangements 52 for the individual's transfer to a United States veterans health admin-53 istration hospital, provided, however, that transfers shall be authorized only after it has been determined, according to accepted clinical 54 55 and medical standards, that the patient's condition has stabilized and transfer can be accomplished safely and without complication; and (c) 56

1 provide any admittee who has served in the United States armed forces with a copy of the "Information for Veterans concerning Health Care 2 Options" fact sheet, maintained by the department of veterans' services 3 pursuant to subdivision twenty-nine of section four of the veterans' 4 services law prior to discharging or transferring the patient. The 5 commissioner shall promulgate rules and regulations for notifying such 6 admittees of possible available services and for arranging a requested 7 8 transfer.

9 § 2. Subdivision 3 of section 2805-b of the public health law, as
10 added by chapter 787 of the laws of 1983, is renumbered subdivision 5.
11 § 3. Section 2803-o-1 of the public health law is REPEALED.

12 § 4. Severability. If any clause, sentence, paragraph, section or part 13 of this act be adjudged by any court of competent jurisdiction to be 14 invalid, such judgment shall not affect, impair or invalidate the 15 remainder hereof but shall be applied in its operation to the clause, 16 sentence, paragraph, section or part hereof directly involved in the 17 controversy in which such judgment shall have been rendered.

18 § 5. This act shall take effect immediately; provided, however, that 19 the amendments to subdivision 3 of section 2805-b of the public health 20 law made by section one of this act shall be subject to the expiration 21 and reversion of such subdivision pursuant to section 21 of chapter 723 22 of the laws of 1989, as amended, when upon such date the provisions of 23 section two of this act shall take effect.
