It's time to take the politics out of school aid.

Let's invest in our children.

The way that school aid has been manipulated over the years for political purposes is wrong. **A new, fair method for funding education would also lessen the burden on our local property taxpayers.**

That's why I'm supporting the **School Funding Equity Act** to bring fairness to the school districts that have been continually shortchanged (A.4609).

– **Assemblyman Santabarbara**

The **School Funding Equity Act** equals more money for our schools

- 1 Calculate aid based on a district's data within the last five years, helping schools that experience growth.
- 2 Eliminate minimum aid requirements and automatic increases for wealthy downstate districts.
- 3 Provide a more accurate calculation of the average cost of educating students in New York.

Make your voice heard!

Let me know what you think of New York's education system.
