

“These last few months have been frightening, traumatic and difficult for all of us. So many have experienced unimaginable loss, illness, unemployment, instability for our older relatives and children and uncertainty that keeps us awake at night. My staff and I have been working tirelessly, 7 days a week to help thousands of our neighbors with unemployment claims, help feeding their families and support of our local small businesses which are the heart of our community. I have continued my travels to Albany to pass several critical legislative initiatives to ease the financial burdens resulting from the pandemic. We will continue to work hard to support our entire community and help provide peace of mind for our neighbors during this unprecedented challenge.”
