Assemblymember **Emily E. Gallagher:**

Safeguarding Hard-Fought Rights

As anti-choice extremists punish people for seeking reproductive health care, **New York is fighting back.** We codified Roe v. Wade into state law in 2019 and advanced additional measures this year to **safeguard reproductive freedom.**

We passed laws to **protect those who come to our state for reproductive care**, protect health care providers who are simply doing their job and **safeguard the privacy and security of providers and patients.**
