Rapid Self Test Kits

I was thrilled that the city could provide my office Rapid Self Test Kits to give out to our community. In a matter of hours, my office handed out a total number of 1,000 self-tests. I understand the importance of testing regularly during these times and will continue to provide testing opportunities whenever possible.

Updates from Albany

This week the 2022 Legislative Session officially began when Governor Hochul delivered her first State of the State address after becoming New York's 57th Governor. Here are some of the highlights set for this year.

Gun Violence

Amid surging numbers of incidents involving gun violence in the state, the Governor announced a series of initiatives that will strengthen gun tracing efforts, support successful local law enforcement programs, and invest in law enforcement data analysis and intelligence networks.

Education

Hochul wants to make the State's tuition assistance program available to part-time students. She is also anticipating launching a new "Jails-to-Jobs" initiative to provide incarcerated people with the help and support they need to find employment after release and stay employed. Additionally, she noted a plan to add more mental health professionals in schools.

Infrastructure

The Governor sent a clear message that throughout the next year and years to come the construction trades and New York infrastructure will be a priority statewide, bringing jobs and much needed highway, local road, airport and rail upgrades.

Advancing Healthcare Workforce

Mentioned in the address, Governor Hochul wants to increase the healthcare workforce by 20 percent over the next five years, in part through a \$10 billion investment, including \$4 billion to support wages and bonuses for healthcare workers.

Additionally, Hochul is calling on the state to provide direct financial support for the education of healthcare professionals, if they work in New York State for a specified period after obtaining their credentials. This would include free tuition, covering instructional costs for high demand health occupations and provide stipends to make up for lost income while in school. Money would also be provided to students for wraparound services such as childcare or transportation support.

Tax Relief

Hochul announced several steps to try and reduce New York's highest in the nation total tax burden.

- These include accelerating \$1.2 Billion in middle-class tax cuts for six million New Yorkers.
- A middle-class tax cut, begun in 2018 and scheduled to stretch out through 2025, the new administration wants to start providing the full benefit of the tax cut two years earlier, fully phasing-in the 2018 middle-class tax cut beginning in the 2023 tax year.
- Property tax rebate for than 2 million New Yorkers, with low-income households and seniors receiving higher benefits. Eligible homeowners will receive their benefit in 2022, to the tune of \$1 billion.
- Seeks to provide \$100 million in tax relief for 195,000 small businesses, to help them keep their doors open.
 - According to the Governor, this relief will come from increasing a tax return adjustment (known as a “subtraction modification”) that reduces a small business’s gross taxable income, as well as from widening eligibility to more entities.

The Environment

It was shared in the Governor's speech that a proposition on increasing the Environmental Bond Act to \$4 billion will go on the ballot this Fall so that we have the resources needed to reach climate change goals.

- \$500 million investment in offshore wind energy that will create thousands of good-paying green jobs.

- In September, it was announced two clean energy mega-projects were set in place to put us on a path to achieve the ambitious goal of cutting 80% of New York City’s power plant emissions by 2030. New construction in the State will be zero-emission by 2027, and we will build climate-friendly, electric homes and promote electric cars, trucks, and buses.
- In addition to the goals previously outlined in the state's Climate Act, the Governor announced that she will propose legislation to require that, by 2027, all new school bus purchases will be zero-emissions, and by 2035, all school buses on the road will be zero-emissions. Additionally, the legislation would enable school districts to contract for buses for longer than the current five-year limitation, expanding their ability to meet this goal.

Assistance to Veterans

The new administration is proposing to extend and enhance tax credits for hiring veterans, expand programs to help veterans navigate from military to civilian life, and to increase the minimum annual state funding for county and city veterans service agencies by 150%

Term Limits for Statewide Elected Officials

Announced prior to the State of the State Address, Governor Hochul is proposing a Constitutional amendment to limit all four statewide elected officials (Governor, Lt. Governor, Attorney General and Comptroller) to two consecutive four-year terms in office. Hochul also proposes that all statewide public officers be prohibited from seeking any work to supplement their income upon being elected (except academic positions approved by the ethics board).

“I am encouraged with the Governor’s message this week. I can assure you that I will remain committed with working with the Governor, Speaker Heastie and my colleagues to assure that the above-mentioned initiatives have a positive impact for the residents of the North Shore of Staten Island.”

5. It's important to submit an SBA Loan Application - After you apply for disaster assistance from FEMA, you may be referred to the U.S. Small Business Administration. If you are referred to SBA, you should complete and submit the application. If your application is approved, you are not obligated to accept the SBA disaster loan but failure to submit the application may disqualify you from other possible FEMA assistance, such as disaster-related car repairs, essential household items and other expenses. SBA disaster loans are the largest source of federal disaster recovery funds for survivors. In planning your recovery, give yourself the widest possible set of options. Submitting the application makes it possible for homeowners and renters to be considered for additional FEMA grants. Applicants may apply online using SBA's secure website at DisasterLoanAssistance.sba.gov or they may email DisasterCustomerService@SBA.gov for more information on SBA's disaster assistance program. Applicants may also call SBA's Customer Service Center at **800-659-2955** or email disastercustomerservice@sba.gov for more information on SBA disaster assistance.
6. **If you're a renter having trouble paying your rent, utilities, or other housing costs – or if you're a landlord trying to stay afloat with tenants in this situation – help may be available. State and local programs are distributing billions of dollars in rental assistance to help renters stay housed during the pandemic. [Visit the CFPB's Rental Assistance Finder](#) to find out what this means for you and what you can do. The CFPB's site also includes resources to help renters and landlords understand other resources to help navigate various financial hardships related to the pandemic.**

FORECLOSURE PREVENTION NETWORK

Legal Services NYC
DEMAND JUSTICE

Since 2007, Legal Services NYC's Foreclosure Prevention Network has assisted nearly 17,000 New York City homeowners facing foreclosure. With community-based foreclosure prevention projects in our Bronx, Brooklyn, Queens and Staten Island offices, our dedicated team of nearly 40 attorneys and advocates provide critical legal services to homeowners navigating the judicial foreclosure process and fight to help them save their homes. LSNYC Foreclosure Prevention Network partners include non-profit organizations, housing counselors, social service agencies and local government. Our advocates conduct trainings, outreach and education activities in conjunction with community and government partners.

WHAT WE DO

Legal Services NYC's Foreclosure Prevention Network attorneys represent homeowners in foreclosure as well as in state and federal court litigation challenging predatory lending, abusive mortgage servicing, scams targeting vulnerable homeowners, and fair housing and lending violations. We are the largest group of free civil legal services attorneys that help NYC homeowners by:

- Representing homeowners in court-mandated settlement conferences
- Providing legal advice and pro se assistance to homeowners through court-based clinics
- Helping clients negotiate home-saving solutions
- Advocating for fairer lending rules, and for better enforcement of laws protecting consumers from predatory practices

CLIENT SUCCESS STORY

Ms. M, a 48-year-old Black homeowner, fell one month behind on her mortgage when she had to pay for her sister's funeral expenses. For one year, her mortgage company continued to accept her payments, but then her servicing was transferred to a new company. The new mortgage company refused to accept Ms. M's payments unless she could catch up on the one missed payment. For three years, Ms. M tried to negotiate with her lender, but it refused to work with her even though she had sufficient income and was caring for her husband, who suffered from Alzheimer's disease. After being sued in foreclosure, Ms. M was able to connect with Brooklyn Legal Services, who helped her negotiate a modification with a lower interest rate and more affordable monthly payment, saving her \$300 per month on her housing expenses and allowing her family to remain in their home.

5. **The Forest Ave. Community Fridge is a group from Mariners Harbor looking to help out our community with Food Insecurity.**

@FORESTAVECOMEUNITYFRIDGE

WHO ARE WE?

We are a collaborative group, born and raised on the North Shore, who are passionate about addressing the health food disparity in our neighborhood of Mariners Harbor. The foundation of our initiative is "take what you need, leave what you don't" and "we keep us fed and healthy!" – in hopes of **creating a culture of unity, interdependence, community restoration and empowerment** in Mariners Harbor.

WHAT IS A COMMUNITY FRIDGE?

A Community Fridge is a fridge that provides **free and healthy food** for community members. The fridges offer access to fresh produce, healthy grains and perishable items to communities that do not have a lot of access to healthy food options.

HOW CAN MY BUSINESS HELP?

Your business can help by donating surplus food to our fridge or allowing us to purchase food at reduced costs.

WHY SHOULD MY BUSINESS/ORGANIZATION CARE ABOUT A COMMUNITY FRIDGE?

In recent political and racial events, many businesses and organizations are looking for ways to fight against racial inequity. Community fridges represent mutual aid – the idea that solidarity not charity is what communities need in order to become fairer and stronger. By donating food to our fridge, your business will be taking part in our ongoing movement for creating justice – first within our communities.

Sincerely,

Charles D. Fall
