Free Summer Meals

A banner for the Free Summer Meals NYC program. The banner features a rainbow background with the text "FREE SUMMER MEALS NYC" in large blue letters. To the right of the text are illustrations of various fruits and vegetables, including watermelon, oranges, bananas, and broccoli. The NYC Department of Education logo is in the top left corner. Below the banner, there is a line of text: "Starting June 28 for everyone 18 years old and under at select public schools, community pools and parks." Below this text are four icons: a smartphone icon for "Available for iOS & Android", a telephone icon for "311", a computer icon for "schools.nyc.gov/summermeals", and a smartphone icon for "NYC FOOD to 304-304". At the bottom of the banner, there are several logos for partner organizations, including AEO, IFOOD, and NOKID HUNGRY, along with the text "This institution is an equal opportunity provider."

Breakfast and lunch will continue beyond the instructional school year. The Summer Meals Program is available throughout New York City to anyone ages 18 years old and under. Designated public schools, community pool centers, parks, and food trucks will be open for service. No registration, documentation, or ID is necessary to receive a free breakfast or lunch meal.

Your copy should address 3 key questions: Who am I writing for? (Audience) Why should they care? (Benefit) What do I want them to do here? (Call-to-Action)

Create a great offer by adding words like "free" "personalized" "complimentary" or "customized." A sense of urgency often helps readers take an action, so think about inserting phrases like "for a limited time only" or "only 7 remaining"!

Speed Cameras Save Lives!

- On August 1, 2022, NYC will begin enforcing the expanded speed camera law.
- The law will allow NYC to issue speed camera violations 24 hours a day, 7 days a week, year-round. NYC DOT is authorized to operate speed cameras in 750 school speed zones.
- Drivers who drive 25 MPH or slower are better able to avoid crashes. Pedestrians struck at 30 MPH are twice as likely to die as pedestrians struck at 25 MPH.
