New Investments, New Jobs

NEW JOBS IN SCHENECTADY

The Schenectady GE Vernova cutting-edge wind facility is now producing new generators and the largest wind turbines in the U.S. This investment means **350 new jobs** for our community, thanks to New York State's Excelsior Jobs Program.

NEW JOBS IN OUR COMMUNITY

Assemblyman Santabarbara helped create thousands of good-paying jobs in our community. He helped pass Green CHIPS, which brought a **\$10 billion partnership with semiconductor industry leaders at SUNY Nanotech** (Ch. 494 of 2022). This partnership positions the Capital Region as a premiere location to research and develop cutting-edge semiconductors, opening the door for **hundreds of long-term, high-paying jobs**.

NEW: Schenectady Central Park Project

Assemblyman Santabarbara **delivered funding** to transform the former Central Park Casino building in Schenectady into a **youth environmental education center**.

Have a question or concern? I'm always here to help!
