# Assemblyman Brian Miller for **Safe Roads & Clean Water**

I know that continued investment in our roads, highways, and bridges means safe roads for our families. It also means jobs from Central New York all the way down to the Hudson Valley, and it means peace of mind when our kids step onto the school bus.

**I am fighting to protect our drinking water by securing a \$2 billion investment to:**

- Protect aquifers, tributaries, and source water
- Remove and replace faulty and dangerous lead pipes
- Help our local towns and villages enhance and maintain wastewater infrastructure

**District Offices:**
