Dear Neighbor,

As 2018 comes to a close, it's time to look ahead to the new year and outline goals that build on the progress we've made.

Our children's futures lie in our hands. As always, I'll fight for increased support for our schools and teachers and more opportunities for our students. I'll work to bring home more state aid and expand pre-K and after-school programs. And I'll continue to strengthen apprenticeship and workforce development programs so our young people have every chance to land good jobs and succeed.

No New Yorker should be forced into bankruptcy because of sky-high premiums or copays. I'm fighting to ensure each and every family has access to quality, affordable health coverage regardless of income or pre-existing condition.

Ensuring access to quality health care also means protecting women's reproductive rights. That's why I'll work to make the Reproductive Health Act law to safeguard a woman's constitutional right to choose, as well as pass legislation to guarantee access to contraception and ensure employers cannot discriminate against employees for health care decisions.

And now is the time for real, comprehensive election reform so that every New Yorker is given an equal chance to make their voice heard. I'll push to establish an early voting period as well as no excuse absentee voting. I'll also work to establish an online voter registration process and close the LLC loophole to prevent wealthy donors from making nearly unlimited campaign contributions.

I'll keep doing my part in the Assembly to create opportunity, increase fairness, boost our economy and help our region thrive. If you have any questions or comments, please contact or visit my office.

Sincerely,

Harry B. Bronson  
Member of Assembly
